SKILLS

Back-end Development	Web Development	Database	Tools
• Python and Django	• Next-Js	• MongoDB	• Git
• Type script	• Html	• MySQL	
• NodeJs	• Css	• Prisma and Redis	
• Express			

PROJECTS

- Developed a real-time chat application with features like private and group messaging.
- Built a user authentication system with features like registration, login, password reset, and social media login integration. Use libraries like Passport.js for Node.js.
- Developed a full-stack to-do list application using Next.js and tailwindCss for the frontend and Prisma as the database ORM. Implemented CRUD operations for managing tasks and utilized React Hook Form for form handling
- Developed a fundamental Django application showcasing key features of the framework. The app includes a user-friendly interface built with Django templates, allowing users to interact with various components. Leveraged Django's ORM for data modeling and database operations. etc

---

PROFESSIONAL EXPERIENCE

Edge Tech

Back-end Developer July-2023 - Present

- Designed client-side and server-side architecture and implemented cloud-based back end solutions.
- Integrated third-party APIs from external applications into web platforms.
- Developed server-side logic in Python and JavaScript.
- Created a RESTful API for a simple application or service. Focus on proper routing, authentication, and
- documentation.
- Worked on optimizing database queries, indexing, and overall database performance. Learn about
- different database systems such as MySQL, MongoDB, etc.
- Identifed and addressed performance bottlenecks in an application. Use profiling tools and techniques to
- optimize code and improve response times.

EDUCATION

Anchor University
Ayobo, Lagos.
October 2022 - Present
Bachelor of Science in Computer Science

University of Lagos
Yaba, Lagos
October 2021 - August 2022
A-Level
Mathematical Science

Professional Development

- Certificate of Participation: Cyber Security Workshop
- Certificate of Participation: Data Analysis and Science Workshop
